ANTICA MURRINA®

VENEZIA

Antica Murrina affonda le sue radici nella centenaria tradizione della lavorazione artistica del vetro. Fondata alla fine degli anni '80, l'attività dell'azienda trae origine dalla passione dei proprietari, i fratelli Voltolina, per la creazione di perle a lume finemente lavorate a mano con foglia oro o argento. La straordinaria capacità di coniugare tradizione e moderne soluzioni stilistiche ha permesso, nel corso degli anni, di dare vita ad una realtà dinamica ed in continua evoluzione, capace di far conoscere in tutto il mondo un prodotto di alta qualità e dall'inconfondibile design italiano.

Antica Murrina has its roots planted way back in the artistic glassworking traditions of centuries ago. The Voltolina brothers founded the company at the end of the 80s driven by their passion for making exquisite torch-moulded glass beads finely worked by hand with gold or silver leaf. Their amazing skill in combining these ancient traditions with modern styles has given rise to this successful and constantly developing company, spreading these top quality purely Italian creations throughout the world.

Antica Murrina plonge ses racines dans la tradition centenaire du travail artistique du verre. Fondée à la fin des années 80, l'activité de l'entreprise est née de la passion des propriétaires, les frères Voltolina, pour la création de perles à lumière finement travaillée manuellement avec feuille d'or ou d'argent. L'extraordinaire capacité de conjuguer tradition et solutions stylistiques modernes a permis, au cours des années, de donner vie à une réalité dynamique et en évolution continue, en mesure de faire connaître dans le monde entier un produit de haute qualité et à l'imitable design italien.

SILVER CHIC

Design prezioso, in cui il gioco delle forme diventa espressione di sé.

In questa collezione debutta l'argento 925, per rendere più preziosi ed eleganti i gioielli Antica Murrina. Il vetro viene plasmato con l'argento, per dare vita ad emozioni di gran classe, da indossare con eleganza tutti i giorni. I colori si attenuano e le composizioni diventano più essenziali.

The play of forms finds its expression in the precious design.

In this collection sterling silver 925 makes its debut, making Antica Murrina jewellery even more precious and elegant. The glass is fashioned with silver to unleash top class emotions and to be worn with elegance every day. The colours are toned down and the compositions sleeker.

Dans cette collection, l'argent 925 fait son débuts, pour rendre encore plus précieux et élégants les bijoux Antica Murrina. Le verre est mis en forme avec l'argent, pour créer des émotions de grande classe, des bijoux à mettre avec élégance tous les jours. L'UNICITÀ DEL VETRO. THE UNIQUENESS OF GLASS. L'UNICITÉ DU VERRE.

Da secoli, il vetro di Murano è conosciuto nel mondo per l'unicità, lo stile e la fantasia. Tutti i gioielli e le perle di Antica Murrina sono realizzati interamente a mano secondo le antiche tecniche di lavorazione dei maestri vetrai Muranesi. Questa caratteristica, di pregio, rende ogni gioiello un pezzo unico. Piccole imperfezioni, inclusioni di bolle d'aria e leggere diversità dimensionale delle perle non possono essere considerati difetti poichè sono il segno distintivo dell'esecuzione artigianale che, diversamente dalle lavorazioni meccaniche, ha la propria originalità ed unicità nell'essere realizzato singolarmente con procedimento rigorosamente manuale. Segnaliamo infine che le misure degli oggetti sul catalogo sono indicative e possono variare leggermente.

Artistic glass has been known for centuries for its uniqueness, style and originality. All Antica Murrina jewels and beads are entirely hand made by following the ancient techniques of glass Masters, each jewel is therefore a unique creation. Small irregularities, bubbles and shape unevenness cannot be considered as a product fault, but as a distinctive sign of a hand made product. Each product has been individually worked, strictly following the ancient tradition methods. The products size may slightly vary from the catalogue.

Depuis des siècles, le verre de Murano est connu dans le monde pour l'unicité, le style et la fantaisie. Tous les bijoux et les perles d'Antica Murrina sont entièrement réalisés manuellement avec des cannes de verre produites dans l'île de Murano, suivant les anciennes techniques de fabrication des maîtres verriers. Cette caractéristique, de qualité, fait de chaque bijou une pièce unique. Les petites imperfections, les inclusions de bulles d'air et les légères différences de dimension des perles ne peuvent pas être considérées des défauts puisqu'elles sont la marque de l'exécution artisanale et qui, à la différence des procédés de fabrication mécanisée, doit son originalité et son unicité à sa réalisation par le biais de procédés rigoureusement manuels. Signalons enfin que les mesures des objets sur le catalogue sont indicatives et peuvent légèrement varier.
